FEATURED PROJECT

AUDI OF TULSA COMBINES PEMB WITH STUNNING ARCHITECTURE TO DEVELOP A BUILDING IN A CLASS ALL ITS OWN

BUSINESS: AUDI OF TULSA
CATEGORY: RETAIL
SQUARE FEET: 14K
PROJECT TYPE: PRE-ENGINEERED METAL BUILDING

A visually stunning work of architecture and another exceptional jewel in the network of dealerships owned by the Don Thornton family, this steel building goes way beyond mere functionality. Sporting nearly 200 linear feet of 20-foot curtain wall with curved and sharp angels, the showroom is highlighted from the inside out. It includes a 60-degree curved wall that mimics the form of a European test track. The wall flows into the showroom where it meets its end at an inverted floating cone.

PROJECT SCOPE

- 14,000 Square Feet Pre-Engineered Metal Building
- 60 Degree Curved Wall
- 200 Linear Feet of 20-Foot Curtain Wall Featuring Curved and Sharp Angles

"The Don Thornton Automotive Group and Audi management and best of all, our Audi customers, are in awe of this new building and love it! Hats off to the whole Fleming Team for doing such a great job! We'll enjoy this building for years!"
- DON THORNTON, DEALER/OWNER, AUDI OF TULSA
