

# FEATURED PROJECT

## FCG'S AWARD WINNING CONSTRUCTION IS LATEST IN 25-YEAR RELATIONSHIP WITH ADVANCE RESEARCH CHEMICALS

**BUSINESS:** ADVANCE RESEARCH CHEMICALS  
**CATEGORY:** INDUSTRIAL + MANUFACTURING  
**PROJECT TYPE:** CONSTRUCTION MANAGEMENT

The relationship between Fleming and ARC, Inc. has spanned over 25 years. The latest execution was an Association of Building Contractors Award Winner that epitomizes the collaborative approach FCG prefers with their select subcontractors. From 70 drilled piers to 300,000 yards of fill to rerouting a waterway and designing a hybrid concrete tilt wall panel + Butler pre-engineered structure, FCG choreographed it all while maintaining schedule and budget.

### PROJECT SCOPE

- Hybrid Concrete Tilt Wall Panel + Butler Pre-Engineered Structure
- 70 Drilled Piers
- 300,000 Yards of Fill Dirt
- Waterway Rerouting

### RESULTS

Association of Building Contractors Award Winner

Completed on Schedule and on Budget

*"We approach every project with the best interest of our customers as the guiding force. There is no better proof of this commitment than our 25-year relationship with Advance Research Chemicals."* -**TOM O'BRIEN, FCG PRESIDENT AND CEO**
