FEATURED PROJECT

**FCG BUILDS FIRST EVER LEED CERTIFIED AUTO DEALERSHIP
IN THE STATE OF OKLAHOMA**

FEATURED PROJECT

LAND ROVER OF TULSA

OVERVIEW

Fleming is proud to have been a part of the construction of the first ever LEED Certified Land Rover automobile dealership. The highly efficient building was the first of its kind for Land Rover as a corporation and is the first LEED certified auto dealership in the state of Oklahoma. The large clear-span showroom features rustic-urban design, with a tongue and groove Douglas fir ceiling and a curtain wall made from a mixture of anodized aluminum and bronze. The building has a 7,500 square foot service and parts center with a diamond-polished concrete floor. The service drive is stamped concrete and is surrounded by landscaping composed entirely of native plants and materials.

LAND ROVER OF TULSA

OVERVIEW

First ever LEED Certified Land Rover automobile dealership is the first of its kind for Land Rover as a corporation and is the first LEED certified auto dealership in the state of Oklahoma.

CATEGORY: AUTOMOTIVE

SQUARE FEET: 16K

PROJECT TYPE: DESIGN/BUILD

FEATURED PROJECT

LAND ROVER OF TULSA

PROJECT SCOPE

- LEED Certified Pre-Engineered Metal Building
- Decorative and Structural Wood Trusses
- EFIS and Man-Made Stone Veneer

"This building was an exciting project for us because it allowed us to demonstrate how a LEED certified PEMB can be customized to embody the comfort, style and technological sophistication inherent in a luxury automotive brand such as Land Rover."

- MIKE PHILLIPS, FCG VICE PRESIDENT
